

ELECTRIC FISHING REEL PRO 900

Description

The fishing reel Pro 900 is aimed at deep sea fishing and heavy trolling.

Its aluminium spool is easily changed (capacity: 1500m of lines Ø 1mm).

The control system of the clutch / brake is independent from the spool and provides more precision whilst fishing. The fishing reel has an arm equipped with a pulley to guide the line and an automatic stop-line.

Integrated emergency stop system.

Waterproof, robust and stainless steel, it is adapted to the marine environment.

Technical information

Motor: 12V or 24V CC

Absorbed power: 280 W

Max consumption: 20 Ah

Max speed: 60 m/min

Traction: 40 kg

Fishing traction: 200 kg

Size: 41 x 53 x 29 cm

Weight: 17 kg

Provided with:

- a stainless steel foot
