

ELECTRIC FISHING REEL 901

Description

Aimed for deep sea fishing or trolling, the fishing reel has an aluminium spool with a clutch/ brake (holds: 600m of lines Ø 1.6mm) and a fish alarm.

The spool can be easily changed.

It has a telescopic davit arm with a pulley to guide the fishing line.

Integrated emergency stop system.

Waterproof, robust and stainless steel, it is adapted to the marine environment.

Technical information

Motor: 12V or 24V CC

Absorbed power: 192 W

Max consumption: 20 Ah

Max speed: 46 m/min

Traction: 25 kg

Fishing traction: 100 kg

Size: 53 x 26 x 25 cm

Weight: 11 kg

Rotation in 2 directions

Provided with:

- an installation kit
- a telescopic davit arm
- a pulley to guide the line
- an aluminium spool Ø250 mm
- a fuse 20A
