

MACKEREL STRIPPER 950

Description

The mackerel stripper 950 removes automatically fish from the fishing lines, without having to stop your fishing reel. You are fishing continuously as the fishing line is immediately back in the water.

The line goes through the mackerel stripper, the fish is unhooked and falls directly into a catch container (due to the slope).

The hooks spacing can be adjusted according to their sizes. This equipment is fixed on the bulkhead of the boat and is made in stainless steel.

Technical characteristics

Dimensions: 55 x 51 x 38 cm

Weight: 15 kg

MACKEREL FISHING LINE

Description

Hooks amount	Monofilament	Details	Ref
10	70/100 on 80/100	Spacing : 25cm Length : 2.75m	MITR 10L
